DEVELOPMENT CONTRACT

(+63) 977 722 9916 | eirmonpaculan11@gmail.com
8QQR+8GJ Naic, Cavite

APRIL 8, 2026

Rosemarie Adan Abelon
CLIENT

This Agreement sets forth the terms and conditions under which the Developer(s) agree to provide development services to the Client.

1. Project Description

The Developer(s) will design/develop/revise **SALBAVISION** with the following feature(s):

- Integrate their datasets and models to riecodes > API for better accuracy
  - Fast inference via RTSP
  - Drowning detection not just from neck but when head is under the water
  - 3 classes should show up (Swimming, Drowning, Out of Water)

Overall, this is a commission for increasing the accuracy of their model in their AI/ML

The client will provide the following before, or during the commission

- Current and future dataset of their swimming, drowning, and out of water
- Need access on Supabase project
- Need previous best.pt's of their model

API Checklist

Item/Service	Cost (₱)
Item/Service	0
Item/Service	0
Item/Service	0
Item/Service	**0**

The Client acknowledges that the pricing and final selection of third-party APIs shall be provided and confirmed at a later stage, as the Developer will initially focus on implementing the core functions of the system to ensure project progress. During this phase, the Client may collaborate with the Developer and suggest relevant APIs based on their own research, subject to compatibility and technical feasibility.

Deliverables Included:

- Source code
- Progress updates

Optional

- Deployment guide and support
- System Documentation (README's)
- Code Comments and Snippets
- APK

All frameworks, tools, components, or any related technologies present in this contract are subject to change upon mutual agreement.

2. Payment Terms

Total Project Cost: ₱9,000.00

Payment Schedule:

- **Down Payment:** 50% ₱ 4500 – required to start the project.
- **Final Payment:** Remaining balance due before delivery of final files and/or documentation.

Payments already made are non-refundable once services or knowledges have been delivered for that period.

The client is already entitled and allowed to get the 50% progress of the system upon down payment

*If the client wishes to get a progress less than 100%, developer and client can propose an agreement that is less than the remaining balance **(**Final Payment**)***

3. Timeline

- **Start Date:** Upon receipt of down payment
- **Target Completion:** On or before APRIL 15, 2026 (may be adjusted by mutual agreement)

"or before" should not be treated as a direct deadline for the project but instead a timeline of possible project delivery. "On" will still be the default and final deadline for the project.

4. Bug Fixes & Revisions

- **Bug Fix Period:** Client is responsible to check/test the app after (every) delivery to report bugs. Developers will fix reported issues free of charge if and only if the report does not exceed (5) calendar days after the delivery
- **Additional Revisions:** Requests beyond the agreed scope or outside the bug fix period will be billed separately.

5. Responsibilities

Developers' Responsibilities:

- Build the project according to agreed specifications.
- Provide updates and consultations during development.
- Deliver source code, documentation, and deployment instructions (depends on specific agreements).

Client's Responsibilities:

- Provide downpayment and timely payments as agreed.
- Supply necessary content, references, or requirements.
- Test and review the project during the bug fix period.

Applicable for projects with Firebase:

- **Firebase Storage Usage and Charges** - The Client shall be responsible for monitoring and maintaining their allocated Firebase storage within the agreed limits. Only if the Firebase account is billed to the Developer's debit card, any additional charges incurred as a result of exceeding the storage quota shall be reimbursed by the Client upon notification.

Applicable for projects with APIs:

- **API Usage and Billing Policy** – The Client shall be responsible for monitoring and managing the usage of any third-party APIs integrated into the system within the agreed usage limits. In cases where an API subscription or usage-based service is billed to the Developer's debit or credit card, any additional charges incurred due to exceeding the allocated quota or usage limits shall be reimbursed by the Client upon notification. The Client agrees not to exceed the defined API limits without prior written approval from the Developer.

6. Termination & Refund Policy

- **By Client:**
  - Payments already made are non-refundable.
- **By Developers:**
  - Payments already made for completed services are non-refundable. Any unused advance payment for services not yet delivered will be refunded.
  - The Developer reserves the right to temporarily suspend access or request payment prior to reactivation in cases of excessive or unpaid storage fees.

7. Miscellaneous

- **Mutual Agreement, Revisions, and Evidence Integrity:** Any revisions, modifications, or breaches to the project scope or terms of this contract shall be considered valid if made upon mutual agreement between both parties, whether through written, verbal, or digital communication (including but not limited to chat messages, video meetings, or face-to-face discussions), provided that such communication is supported by verifiable evidence. Both parties acknowledge that adjustments to project tools, frameworks, components, or implementation methods may occur as necessary to meet development deadlines, ensure system compatibility, or improve performance consistent with the clause stating that "*All frameworks, tools, components, or any related technologies used are subject to change upon mutual agreement.*"
- **Evidence Integrity:** Any form of evidence used to support a mutual agreement (such as chat logs, meeting records, screenshots, or emails) must be kept intact and not deliberately deleted, unsent, or altered. Any act of evidence destruction, falsification, or deliberate misrepresentation shall be considered a violation of good faith and may nullify claims that contradict the preserved records. Such revisions or mutual agreements shall not be considered a breach of contract but rather an authorized modification, made in good faith and in the best interest of the project's success.
